To Residents and Business Owners:

RE: Main Street Re-Construction Notice (West of Madison Street only)

This letter is to inform residents and business owners who have direct access along Main Street of upcoming street, curb, and sidewalk construction.

Construction is progressing on schedule for Main Street with curb and sidewalk construction to begin between Madison and First Street. Construction is scheduled to begin on this section (West of Madison Street) Monday, August 6, 2007. This construction will include existing sidewalk and curb removal at the start, with new concrete pavement, curb, and sidewalk to follow in the coming weeks. The contractors will be required to keep access to your residences and businesses throughout this process. There may be some times when access will be limited however, this will be minimized.

If there is any special access needs please notify me as soon as possible. This notice does not apply to the residents and business owners located east of Madison Street.

The contractors, City of Evansville, and I would like to thank everyone for their patience and cooperation during this time. We do want to take this opportunity to remind everyone that this is an active construction site and please use good judgment and caution at all times, regardless of the activity in the area.

If you have any questions or concerns, feel free to contact me at (608) 358-7144.

Sincerely,

Foth Infrastructure & Environment, LLC

Thomas Pfefferkorn
